" We are born Free
no **Gates** or **Windows** can
Snatch our Freedom. "
-- **Vikas Debnath**

About Us

Established in 1995 by Mr. Vikas Debnath and Krishan Kumar as a partnership organization as KV IT-Solutions, Registered as KV IT-Solutions Pvt. Ltd. On year 2007, KVIT Solutions is active in Delhi NCR region with 300+ enterprises including some of the marquee names like Indian Railways, Metro Tyre, Videocon Industries, Oyo Rooms, TDI, Axa-Assistance & many others.

Our Vision

The visionary goals are the lofty objectives that the firm's management decides to pursue. The vision statement of the company is to be the leading open source solution provider. Behind this lies the underlying motive of spreading Linux among the masses, for them to realize the true potential of a "freeware", to get rid of Microsoft's monopoly.

For the last 21 years KV IT has not only survived but has grown progressively towards being a "tried, tested and trusted", name in the field of IT solutions, and the massive list of satisfied clients endorse this fact.

Our Mission

To provide a complete solution by developing customized enhancements to benefit your organization.

To offer a suite of services for all kinds of company requirements ranging from preliminary company analysis and recommendations to long term project maintenance.

Ensuring excellent quality of service in all activities.

Providing best solutions at the most competitive prices.

Services:

After sales support is an essential part in any technological service, and we here at KV IT pay prime stress on the service part. We not only provide support for the implementations done by us but also find deep interest in providing services for the already running Open Source solutions at your enterprise.

We do our best to provide you quality support in order to solve all your queries through any of the following means.

On-line Support:

Our products are so designed that they can be easily accessed by us online any time, which increases the work efficiency by cutting down on time required to answer and resolve your query.

Our engineers provide 24X7X365 cost-effective online support for all your critical applications.

Telephonic Support:

We provide telephonic consultation for your query and try to get away with that right thorough the call. This includes not only the technical support but operational and "how to" assistance also on our product.

On-site Support:

Although we try our best to provide you online support and save your time but in case if its not possible (hardware fault), We have an option of providing you with an on-site support.

Our engineers will visit your enterprise, within 24 hrs of logging the complain and will provide you the best solutions for your problem. We work 6 days a week but a special consideration can be taken on the 7th days(Sunday) as well, depending upon the urgency of the problem.
